

MONTHLY CRIME COMPARISON FEBRUARY 2010-2009

These statistics are compiled and categorized using standards set by the FBI Uniform Crime Reporting (UCR) program, and therefore may not conform to local and state criminal statute definitions. In addition, the statistics provided on this website are for general use only. Please refer to the FBI web site for the official Shreveport crime statistics.

All statistics are subject to change due to a variety of reasons, such as a change in classification, the determination that certain offense reports were unfounded, or late reporting. The information presented accurately reflects the information contained within the SPD Records Management System at the time of this report.

SPD does not provide this data as a method of determining if one police district or area of the city is safer or more dangerous than any other district or area. Police districts vary in size, population, and density, making such comparisons difficult.
